

Duct Tape 3900

Seven for color-coding, conformable bundling, moisture resistance, and general repairs

Rubber adhesive and conformable backing secure PVC pipes and other items.

Physical Properties

Adhesion to steel	56 oz./in. width (62 N/100mm)
Tensile strength	22 lbs./in. (385 N/100mm)
Use temperature	Up to 200°F (93°C)
Backing	Polyethylene coated cloth scrim
Adhesive	Natural rubber
Tape thickness	7.7mil (0.19mm)
Roll length	54.8m (60 yds.)
Roll widths/ colors	Green, Black, Gray, Red, White, Yellow, Blue – 24, 48, 72mm (1, 2, 3 in.)

Note: Data should be considered representative or typical only, and should not be used for specification purposes.

When color and conformability make a difference for bundling, protecting, and general repairs, you've got a choice of seven colors. And each conformable tape gives you the following features:

- 3M rubber adhesive to stick fast and stay fast on many surfaces, even irregular surfaces
- Strong moisture resistant backing for long term performance in moist and humid environments
- Polyethylene over cloth scrim for good tensile strength in tough applications
- Tears easily straight across and down without curling
- Tack-free edges
- Individually wrapped for easy identification and to preserve roll integrity

Application Ideas

- Color-coding bundles, pipes and conduit, components, and more
- General temporary repairs in shop and around the plant
- Sealing in moist and humid situations
- Protecting surfaces from abrasion
- Hold and call attention to temporary wires on the floor

Applications

Bundled electrical wires are easier to pull through conduit. And for less bulk in the conduit, 3M™ Duct Tape 3900 provides the lowest profile of all 3M polyethylene duct tapes at only 7.7 mils total thickness.

Available in seven colors, 3M™ Duct Tape 3900 temporarily color-codes and caps conduit and risers keeping out dirt, debris, moisture, and pests.

To secure carpeting at trade shows, 3M™ Duct Tape 3900 secures the edges to the concrete floor to help prevent curling and tripping.

PRODUCT USE: All statements, technical information and recommendations contained in this document are based upon tests or experience that 3M believes are reliable. However, many factors beyond 3M's control can affect the use and performance of a 3M product in a particular application, including the conditions under which the product is used and the time and environmental conditions in which the product is expected to perform. Since these factors are uniquely within the user's knowledge and control, it is essential that the user evaluate the 3M product to determine whether it is fit for a particular purpose and suitable for the user's method of application.

WARRANTY AND LIMITED REMEDY: Unless stated otherwise in 3M's product literature, packaging inserts or product packaging for individual products, 3M warrants that each 3M product meets the applicable specifications at the time 3M ships the product. Individual products may have additional or different warranties as stated on product literature, package inserts or product packages. 3M MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY ARISING OUT OF A COURSE OF DEALING, CUSTOM OR USAGE OF TRADE. User is responsible for determining whether the 3M product is fit for a particular purpose and suitable for user's application. If the 3M product is defective within the warranty period, your exclusive remedy and 3M's and seller's sole obligation will be, at 3M's option, to replace the product or refund the purchase price.

LIMITATION OF LIABILITY: Except where prohibited by law, 3M and seller will not be liable for any loss or damage arising from the 3M product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted, including warranty, contract, negligence or strict liability.
